From President Marc

Jane Frederick provided us with an excellent presentation on LEEDS building design and ways to make our commercial and residential buildings Green. From the number of questions from the members, it is clear that reducing our "carbon footprint" is a goal we all share.

Thanks to Past President Chris for chairing today's lunch meeting. Contrary to what he may tell you, I am not "hiking the Appalachian Trail," but am under the able adult supervision of my bride while attending our son's Clemson orientation. I look forward to returning to the helm on the 21st.

Marc Fisher, 2009-2010 Sea Island Rotary President
